New pipettors - Lambda EliteTouch /Axypet Pro
## 0.1-2, 0.5-10, 2-20 µL

Quick notes:

- Plunger is supplied as complete assembly with spring, shaft holder, connecting bush and cap
- Shaft supplied with sealing part(s) x2 (one set of sealing is spare);
- Seal + O-ring is used in model 2 / O-ring (only) is used in models 10 and 20 !
- Use Tip Ejector to unscrew / tighten the shaft assembly to the handle body
- For quick access to shaft and sealing parts - pull down the Tip Ejector to detach it from the pipettor

Item	Name	Notes
